Dear Dwi Bambang Putut Setiyadi and Hersulastuti,

I am pleased to send you the proof of your article in the journal IJAR for your careful review.

Any corrections and additions may be made in the pdf file itself in the following way:

- 1) Please mark the appropriate place in the pdf file.
- 2) Make a note about your correction request at the corresponding place.

If at all possible, please return the commented pdf file by June, the 15th.

We will then implement your changes, conduct a last revision in house, and will only get back to you again in case we need reassurance on specific issues.

Dear Setiyadi, dear Danilo,

I have to come back to you again because of the figures in the attached article. In a test print it has now become apparent that the figures are unfortunately not readable in the current quality. I would ask you to send me the figures displayed on the pages 160-165 in a higher resolution. We will then exchange them quickly and can start printing.

Best regards

Thea

Dear Setiyadi,

thank you again for the fast sending of the new figures.

We have included them in the print file. The resolution is not ideal, but I would say that the quality is sufficient for printing.

Please have a look at the corresponding pages in the attachment and let me know if you can release them for printing.

Best regards
Thea Blinkert
